Ceramics is the second range in this new era of "Fusion Concepts" products. These articles are completely new and complement the existing SWAROVSKI ELEMENTS range, including Crystal Mosaic, not only represent an entirely new look but are also the first loose products made from material other than crystal. The extraordinary assortment is available in four exciting colours that are reminiscent of a typical ceramic colour palette.

Ceramics <<<

Ceramics is a truly original material innovation developed by the Fusion Concepts line. This is a product that not only features a craquelling glaze finish but is also inspired by modern graphic colour contrasts, clay and ceramic sculptures and artefacts from an archaeological excavation. Its innovative design opens up even more possibilities for dazzling creations combining Crystals and Ceramics by using complementary cuts and shapes from the entire SWAROVSKI ELEMENTS assortment.

Article Explanation <<<

Ceramics article numbers follow the already known article groups and numbers, however /B is added to the original article number to distinguish between Ceramics and crystal variants.

Application Guidelines <<<

Because of sharper hole edges, it is worth considering using a stronger thread (nylon coated wire) for your designs.
