All Crystal Fabric-it Motives are available either in Crystal Aurore Boreale with transparent film or in Jet Hematite with black film. Generally all current Crystal Fabric Motives are available as Crystal Fabric-it version as soon as they respect the maximum possible size. Furthermore it may occur that slight adjustments are needed to fulfill the design requirements of Crystal Fabric-it.

M	105 PCS	100%

A special motif is any individual design created by the customer, which is different from the Self-adhesive Elements Standard or Trend Collections. This service opens up many customisation possibilities and enables you to profit from Swarovski's longtime experience and design expertise. A range of customisation options for existing motives is available (see "Customisation Possibilities" below). You may also submit sketches of a design that will suit your special needs – such as a brand image or an image to suit a particular sales campaign. This will then be made up according to your specifications using Computer Aided Design which allows for easy adjustments according to your needs.

Customisation Possibilities for Crystal-it & Crystal Tattoo

<<<

- Change of elements of an existing motif
- Change of size of an existing motif
- Logos or brand names
- Up to three colours with two elements (S6T, S10T) possible per **Crystal-it / Crystal Tattoo motif**

Customisation Possibilities for Crystal Fabric-it Motives

<<<

- Maximum motif size: 380x235 mm
- Minimum motif size: 10x10 mm
- Minimum width of holes within motives: 4 mm
- Minimum Crystal Fabric-it surface: 4 mm
- Minimum size of the smallest element within a motif: 10x10 mm

It is generally possible to draw motives with a minimum gap of 4 mm between the outlines. However, due to the tolerance level of the crystals being applied onto carrier film, the final Crystal Fabric-it Motives may generally differ from the sketches or prints in relation to the motives' outline, especially with regards to spaces that are smaller than 4 mm. Therefore the motif, and by extension, the product itself, may be subject to individual variations with each reproduction. These variations are caused by technical production-related factors. As these variations are not deemed to be defects, warranty claims shall therefore not be entertained by Swarovski.

Special productions are generally offered to all our customers if feasibility is given and our General Terms and Conditions are applied. Please note that the simple order of a design does not grant exclusive production of this design to the customer.

Customisation Possibilities for Crystaltex-it Bandings Motives

<<<

Motives come in rows and per metre

Pattern repeats:

- min. size 1x2 rows
- max. size 50 cm x maximum rows (44 or 57)
- Up to eight colours are possible for Crystaltex-it Bandings Motives using either SS 6 or SS 10 stones (mix of stone sizes is not possible).

Special productions are generally offered to all our customers if feasibility is given and our General Terms and Conditions are applied. Please note that the simple order of a design does not grant exclusive production of this design to the customer.

Bandings may be delivered cut up to 3 pieces per packaging.

In case that the size of the motif is smaller than 50 cm the packing unit might be below 5 metres.

Over- or undersupply of +/- 10% is possible and has to be accepted.

Customisation Possibilities for Crystaltex-it Motives

<<<

Min. size: 12x12 mm (4x4 stones)

Max. size: 122x162 mm

Distance between the Flat Backs SS 10 (from stone centre to stone centre):

· Max. 4.8 mm

· Min. 3.4 mm

Distance between the Flat Backs SS 6 (from stone centre to stone centre):

· Max. 3.7 mm

· Min. 2.4 mm

Up to eight colours are possible for Crystaltex-it Motives using either SS 6 or SS 10 stones (mix of stone sizes is not possible).

Special productions are generally offered to all our customers if feasibility is given and our General Terms and Conditions are applied. Please note that the simple order of a design does not grant exclusive production of this design to the customer.

Over- or undersupply of +/- 10% is possible and has to be accepted.

Ordering Process

<<<

Send the request with a drawing you wish to order to your nearest Swarovski sales office. Make sure you include all measurements to the desired motif. Please also indicate, which product group your special motif refers to (Crystal-it, Crystal Tattoos, Crystal Fabric-it, Crystaltex-it). You will then receive a quotation including your article number, minimum order quantity, price and the line drawing of your special motif in PDF format. Please contact your Swarovski sales office again if any changes need to be made. Your special motif will be produced and delivered following your confirmation.

Please Note

<<<

Please always submit your drawing of the desired motif to represent it in the actual size you require. A small sketch, when enlarged to the desired size, will have blurred lines that will make it difficult to correctly reinterpret. Pictures or drawings representing 100% size of the design or very good quality scans in JPG, BMP or DXF format will ensure that we have clear data to work with. These can also be sent via email or on a CD-ROM. If sending a sewing pattern, please include the whole pattern and not just cut outs. When the sketch is submitted as a hard copy by fax or e-mail, please include a scale legend (e.g. copy/scan with ruler next to the drawing). This will ensure that the desired size of the motif can be identified.

Special productions are generally offered to all our customers if feasibility is given and our General Terms and Conditions are applied. Please note that the simple order of a design does not grant exclusive production of this design to the customer.

WARNING FOR CRYSTAL TATTOOS

Crystal Tattoos may be applied on healthy skin only. Do not adhere to eyes or on mucous membranes. Crystal Tattoos are not recommended for young children. Loose crystals may present a small parts hazard to young children, particularly children under three years old. If a crystal comes loose, depending on the size of the crystal, children may choke on, inhale, swallow or insert the crystal into the nose.
