

## Flat Backs Hotfix

Flat Backs Hotfix are loose crystal elements with a flat reverse side that has been pre-coated with a heat-sensitive glue. These Flat Backs can be easily applied to a large range of textile carrier materials using heat to produce a durable and long-lasting crystal effect.

Flat Backs Hotfix are available in a multitude of colours, shapes and cuts. The increased light reflection and warmer appearance of the Flat Back Rose are achieved through a particular silver mirror on the reverse side.

The most innovative single item in this product group is art. 2078 XIRIUS Rose, with its most progressive and unique cut in the market: multilayer cut technology creates the inspiring XIRIUS star design. Superior fire and a rich, well balanced cloud of light points redefine the market standard.

Swarovski's outstanding quality standards of crystal elements are underlined by highest precision in table size and diameter.
